(S) Collins KWM-2A Transceiver 80-10m CW-SSB-RTTY. Has the extra crystal bank board + some extra crystals + polished aluminum Turner hand microphone which sounds excellent with this radio!650 Kcs. NOTE All the following classic Collins equipment is in excellent working condition, calibrated, and in "good" to "very good" cosmetic condition. I've had it for many years and used it all on the air extensively, always getting good signal reports. All have the winged Collins emblem, are set for 120 VAC power and all tubes test strong. All equipment comes with correct manuals. I hate to ship this nice stuff and would greatly prefer pickup from my QTH near Canard, NS. If you pick up I will also demonstrate the gear for you, and give you a discount.
